Hi Amelia,

I am going to respond to this reporter tomorrow. Do you remember how many property owners you contacted regarding access during the Preliminary Assessment? I know it wasn't for sampling but for a site visit to the mines. And I think some of the landowners have changed since then. Tell me if you remember a specific number...I know it was only a few.

Thanks,

Dania Zinner

Folks: I have been contacted by a Fall River County rancher who claims a handful of people denied EPA access to their wells when a Preliminary Assessment was done on the Darrow/Freezeout/Triangle Mines. As you can imagine the proposed Azarga ISR project continues to draw fire from many of the locals down in southwest South Dakota. Can you confirm for me that EPA was denied access to any properties and which landowners objected? And, if so, are steps being taking to gain access to those properties before the Site Investigation is done this year? While I'm asking questions is there a time from for that investigation yet? I can be reached at the number below. Thank you for your time. You

Andrea J. Cook
